These items were shipped to retail locations nationwide and exported to Canada.

The problem was discovered when the firm received additional consumer complaints about rocks being in the products and the firm then notified FSIS of the issue.

There have been no confirmed reports of adverse reactions due to consumption of these products. Anyone concerned about an injury or illness should contact a healthcare provider.

FSIS is concerned that some product may be in consumers' freezers. Consumers who have purchased these products are urged not to consume them. These products should be thrown away or returned to the place of purchase.

FSIS routinely conducts recall effectiveness checks to verify recalling firms notify their customers of the recall and that steps are taken to make certain that the product is no longer available to consumers. When available, the retail distribution list(s) will be posted on the FSIS website at www.fsis.usda.gov/recalls.

Consumers with questions about the recall can contact Conagra Brands Consumer Care at 1-800-672-8240 or at Consumer.Care@conagra.com. Members of the media with questions about the recall can contact Daniel Hare, Conagra Brands Senior Director of Communication, at (312) 549-5355.

No action is required of local health departments at this time for either of these recalls. If any requests for assistance are received from either FDA or USDA, the Public Health and Food Protection Program will contact you.
