Food/Drug/Pet Recall: Advance Pierre Foods, Inc.

Advance Pierre Foods, Inc., an Enid, Okla. establishment, is recalling approximately 20,373 pounds of ready-to-eat (RTE) beef patties that may be contaminated with extraneous materials, specifically soft purple plastic, the U.S. Department of Agriculture's Food Safety and Inspection Service (FSIS) announced.

The frozen RTE flame broiled beef patties were produced on Nov. 30, 2018. The following products are subject to recall:

. 14.06-lb. cases containing three bags with 30 pieces for a total of 90 portions of "CN FULLY COOKED FLAMEBROILED BEEF PATTIES CARAMEL COLOR ADDED" with case code 155-525-0 and package code 8334.

The products subject to recall bear establishment number "EST. 2260E" inside the USDA mark of inspection. These items were shipped to food service locations nationwide. While the product was distributed to schools, it resulted from a commercial sale and was not part of food provided by the USDA for the National School Lunch Program.

The problem was discovered on April 1, 2019 after the firm received two consumer complaints regarding soft purple plastic found in the product.

There have been no confirmed reports of adverse reactions due to consumption of these products. Anyone concerned about an injury or illness should contact a healthcare provider.

FSIS is concerned that some product may be frozen and in food service freezers. Food service locations who have purchased these products are urged not to serve or consume them. These products should be thrown away or returned to the place of purchase.

Consumers with questions about the recall can contact AdvancePierre's Consumer Affairs Hotline at (855) 382-3101. Members of the media with questions about the recall can contact Worth Sparkman, Senior Communications Manager with AdvancePierre, at (479) 290-6358.

No action is required of local health departments at this time for any of these recalls. If any requests for assistance are received from either USDA or FDA, the Public Health and Food Protection Program will contact you.
