Food/Drug/Pet Recall: RXQ Compounding, LLC

RXQ Compounding, LLC ("RXQ") is voluntarily recalling all sterile human and animal products within expiry to the user level due to lack of sterility process assurance associated with the production of the Company's sterile products. In addition, RXQ is voluntarily ceasing all sterile production at its current location as RXQ transitions into the Company's new outsourcing facility.

Administration of a non-sterile product that is intended to be sterile by subcutaneous, intramuscular, intravenous or ocular routes of administration may result in serious injury or death.

To date, RXQ has not received reports of any adverse events related to the sterile products being recalled.

All lots of unexpired sterile drug products produced at the Athens, Ohio location are being recalled. RXQ's products were distributed to hospitals and practitioners nationwide.

For a full listing of the products, including lot numbers and expiration dates, being recalled please follow this link: <https://rxqcompounding.com/Recall-List.pdf>

RXQ is notifying its customers by letter and is arranging for return of all recalled products. Hospitals and practitioners that have these products being recalled should stop using them immediately.

Consumers with questions regarding this recall can contact RXQ between 9 a.m. and 5 .EST by phone at (740) 331-4202 or e.mail: Brian.Post@RXQCompounding.com.

Consumers should contact their physician or healthcare provider if they have experienced any problems that may be related to taking or using this drug product.
